

What is Respite Care?

Everyone needs some sort of rest to restore your abilities to care for others. In an airplane, the flight attendant asks the passengers to “always put on your respirator mask first.” The Amesbury COA promotes this same concept for caregivers.

Respite Care provides caregivers a temporary rest from caregiving, while the loved one continues to receive care in a safe environment. In a supportive or social day program there is supervision and socialization for elders who require additional supervision or assistance.
